DIES ON WAY TO JOIN
VIMY PILGRIMAGE

Mrs. Nina Frederica de Pencier,
wife of Archbishop A. U. de Pencier,
of the Diocese of New Westminster,
died at Cedar Falls, Iowa, last Friday.

Mrs. de Pencier was 63 years old.
At the time of her death she was en-
route to Montreal with the archbishop
to join the Vimy pilgrimage. Death
was due to heat prostration. Arch-
bishop de Pencier is returning to Van-
couver with the body.

The South Kootenay Pass fire de-
veloped into enormous proportions yester-
day, but appears to have subside-
d considerably during the night.

Steve Ondras has been appointed
teacher of the Burnis school, suc-
ceeding Miss Vera Cox, recently married.

Other fires have developed during
the last few days, mostly on the Brit-
ish Columbia side, one reported
south of McGillivray, and another up
the Elk Valley.

SCRABA—MCCARTNEY

On Wednesday, afternoon last at the home of Mr. and Mrs. J. W. McCartney, Lamont, a very pretty wedding was solemnized by Rev. N. D. McLeod, pastor of Lamont United church, when Rita Evelyn, their only daughter, and Eli Scraba, son of Mr. and Mrs. William Scraba, (formerly of Wainwright) were united in marriage. The bride, on the arm of her father, entered the living-room, wearing a beautiful gown of white net over satin with veil and orange blossoms, and carrying a bouquet of pink and white carnations. She was attended by Miss Viola Menary, of Edmonton. Mr. Harry Scraba, brother of the groom, was best man. At the conclusion of the ceremony a dainty buffet luncheon was served to about 25 guests.

The bride's going away costume was a navy jacket and white silk hat. They left by motor for Calgary, where a short honeymoon will be spent before going on to Blairmore, where they will reside.—Wainwright Star.

FIRE ENCIRCLES FIGHTERS

The south Flathead fire has jumped the summit of the South Kootenay Pass into Alberta, and for a time it was feared a number of fire fighters might have been surrounded on the Alberta side. In the area there are fifty-six men with provisions for about ten days. A new crew of about fifty men left this morning in an effort to reach them. It is felt that the 56 men are in no immediate danger, provided they do not attempt to come out.

Other fires have developed during the last few days, mostly on the British Columbia side, one reported south of McGillivray, and another up the Elk Valley.

BE CAREFUL OF FIRES

With the extremely dry and hot weather, every precaution should be taken against the dread fire hazard. No one should make use of an open fire unless they are absolutely in a position to control it. Campers, swimmers, etc., should use their brains in the proper direction at this time. Where a fire is considered absolutely necessary, see that it is lighted in a place with water galore close at hand—on an island in a stream is suggested, provided some person stays by it, fully equipped to guard it.

At this time, it is suggested—in fact urged that no open fires be used. Camp stoves, such as are approved by the government fire and fish wardens, should be made use of. Swimmers can do their swimming before sundown, thereby relieve the necessity of a fire by which to dry and warm themselves. Be careful with matches and cigarette butts. They can be easily extinguished before taking a chance of throwing them out into dry and fire-thirsty tinder.

UNVEILING PROGRAMME

While the official order of service for the unveiling of the Vimy Memorial on Sunday, July 26th, has not been released as this issue of the Legionary goes to press, it is expected the programme will be as follows:

2.15 p.m.—His Majesty the King arrives, wearing morning dress. Royal Salute. "God Save The King." Royal Salute. "La Marseillaise."

2.32 p.m.—Proceed to dais.

2.35 p.m.—Religious service conducted by Hon. Lt.-Colonel the Rev. Cecil C. Owen, of Vancouver (Church of England in Canada); Hon. Lt.-Colonel the Rev. George Oliver Falls, of Toronto (United Church of Canada), and Hon. Lt.-Colonel the Rt. Rev. A. E. Deschamps, Auxiliary Bishop of Montreal (Roman Catholic Church).

"Flowers of the Forest."
Message by the Rt. Hon. W. L. Mackenzie King, Prime Minister of Canada, to be transmitted from Canada by trans-Atlantic telephone to Vimy Ridge and re-broadcast to Canada.

Address by the Hon. Ernest LaPointe, Canadian Minister of Justice.

Address by the Hon. Ian Mackenzie, Canadian Minister of National Defence.

Unveiling of Vimy Memorial by His Majesty the King.

The Last Post. Two Minutes Silence. The Reveille.

Speech by the President of the French Republic.

"Land of Hope and Glory."
Presentation by His Majesty the King to the President of the French Republic.

3.40 p.m.—"La Marseillaise" and "God Save The King." His Majesty the King and the President of the French Republic leave together.—The Legionary.

James Marshall, of Hillcrest, has passed his theory in violin, and has received both his A.T.C.M., Toronto, and L.R.S.M., London. Mr. Marshall was first taught by Mr. W. H. Moser, Pass violin teacher, and completed his studies under Gregori Garbovitsky, Calgary. He will establish himself in Calgary.

George Spizawka, of Michel, George Turner, of Natal and Mike McGrath, of Coleman, were among the consolation prize winners in the recent draw made by the Ontario Rifle Association at the Rifle Ranges, Long Branch, Ontario. All the major prizes excepting two, landed in points east of Alberta.

THE DONKEYS HERE AND GONE!

"Thank God!" was the remark made by one of the dads who took a notion he could ride a donkey last evening, but failed with a few sprains and bruises.

Anyhow, the donkey baseball, as a novelty, proved the biggest outdoor attraction that ever hit The Pass. While gate receipts totalled around \$360, it is estimated that fully three thousand persons were near enough to the scene of action to at least hear the loud speaker and see some of the would-be riders hit the dirt.

The game, played by teams picked from the toughest business men at Coleman and Blairmore, ended 2-1 in Blairmore's favor.

Count Val Rinaldi officiated ably as umpire.

As a result of the undertaking, the Blairmore Amateur Athletic Association will net a neat sum, which will go towards financing a high board fence that is to be erected around the grounds.

Also, as a result of the enterprise, fractured noses, cuts, bruises, etc., are being nursed. But the audience fully enjoyed the entertainment.

ENTERING OUR NEXT CYCLE OF NORMAL WET YEARS

Phil Weinard, of Salmon Arm, B.C., who has been visiting his son George Weinard, of Eden Valley ranch, has divulged his ideas about present and future weather prospects. And to give authority to his predictions, it must be recalled that he has been observing Alberta's vagaries ever since 1882, when first he came to "The Crossing."

It is his belief that we have hit the peak of our dry cycle this summer, and that rain will come this fall. Perhaps the wet weather may not come in time to help this year's crop, but it is on its way, and will be the forerunner of a succession of wet years.

He considers this summer to be almost identical with 1894 in its relentless heat and drying winds. The year 1894 was the climax of aridity, in a cycle which commenced in 1889. Rain fell in the fall of 1894, and the succeeding years of '95, '96 and '97 brought increasing precipitation. In 1898 it was almost impossible to get around the country at certain times because of the heavy travel. From then until 1904 there was a succession of splendid crops. But 1904 started to get dry and by fluctuating stages reached the great drought of 1916.

Later years have thrust us into similar wet and dry periods, which show a certain amount of regularity in continuity and duration. So he concludes that we are at present on the peak—or in the depths—of the drought.

Mr. Weinard came to this district in September of 1882. He drove eight pair of oxen on an I. G. Baker wagon from Ft. Benton to Macleod, then made his way north. He reached High River September 28 in a snow storm. The storm lasted 3 days, and when it cleared there was three feet of snow on the level. A chinook disposed of this heavy fall snow of High River, but between here and Calgary much of it remained on the ground till the following spring.—High River Times.

Just before the donkey baseball game here, the manager distributed fourteen pounds of rosin to aid the players in staying atop their mounts. Turpentine was also at a premium; as players began limbering up for their first go at the donkeys.

It is freely rumored that some enterprising persons have made application for grounds at Crow's Nest Lake for the purpose of making same into an up-to-date tourist camp and pleasure resort. Plans will include a swimming pool for young children, something on the line of those at Cranbrook, Lethbridge and other places.

CARD OF THANKS

Mrs. William Oakes and family and Mr. Robert Oakes desire through The Enterprise to thank all friends for their kindness shown them, following the accident and death of Mr. William Oakes. Particularly do they appreciate the action of the miners in turning out in full force at the funeral, as well as Mr. Max Stigler, who came from Coleman to conduct graveside service for the U.M.W. of A. Also the following for floral tributes and letters of sympathy: Uncle Bob, Aunt Jane and family, Blairmore; Olive, Jim and family, Blakeburn; Mrs. and Mrs. Jack Little, Blakeburn; Mrs. M. Johnson and family, Blairmore; Lella and Jack and the Scary family, Calgary; Dr. Gow, The Wheatley Family; W. H. McCordell, Mrs. D. G. Wilson, Mrs. and Mrs. Case and Mrs. Scott, Banff; E. O. Duke, M.L.A., and Mr. and Mrs. Pete Mansole, Canmore; Blairmore Men's Social Credit Group; Blairmore Ladies' Social Credit Group; Blairmore Branch of the Canadian Legion, B.E.S.L.; Blairmore Miners' Association; First Blairmore Rangers; Mrs. J. R. Smith, Mr. and Mrs. D. Rees, Vici Group of C.G.I.T.; Mr. and Mrs. Brusset, Mr. and Mrs. W. Johnson; Mr. C. Millar, Margaret and Wesley; Mr. and Mrs. T. Hadwell and family, Mr. and Mrs. S. Price, Mr. and Mrs. F. Wheatcroft and family, Mr. and Mrs. F. Millett and family, Mr. and Mrs. George Brown and family, Mr. and Mrs. J. Angus MacDonald and family, Mr. and Mrs. W. McVey, Mr. W. Goddard, Mr. and Mrs. H. Blake and family, Mrs. Freeman and Frank, Mr. and Mrs. Jack Maddison and family, Mrs. S. Simister and Mrs. McKay, Mr. and Mrs. William Duncan and family, Mrs. A. M. White, Mrs. Larlaelester, Mr. and Mrs. P. Montalbetti, Mrs. Phiney, Mr. and Mrs. B. B. and Mrs. S. Rowe, The Pythian Sisters, Hillcrest Men's Social Credit Group, Hillcrest Ladies' Social Credit Group, Bellevue Miners' Association, Bellevue Social Credit Group, Coleman Excelsior Social Credit Group; Mr. and Mrs. J. Clarke and Clarence, Coleman; Mr. and Mrs. D. Hoyle, Coleman; Mr. and Mrs. S. Bate and family, Nelson, B.C.; Mr. and Mrs. T. Horrocks, Michel, B.C.; Mr. and Mrs. W. H. Cartwright, Michel; Mr. and Mrs. T. Bastian and family, Edmonton; Mr. and Mrs. T. Baxter, Chapman Camp, B.C.

Also, as a result of the enterprise, fractured noses, cuts, bruises, etc., are being nursed. But the audience fully enjoyed the entertainment.

Friday, 7 p.m.: Young people's meeting.

BELLEVUE UNITED CHURCH

Starting Sunday next, and continuing to the end of August, services will be at 11 a.m. instead of 7.30 p.m.

We understand that a movement is on foot to finance a swimming pool, to be operated in conjunction with the Cascade Inn at Lunenburg Falls. Plans are being drafted, which will provide for a suitable pool with hot and cold water appliances, etc., which will be made available to the public at very nominal rates.

See the large posters just issued from the job department of The Enterprise, announcing F. M. Thompson Co.'s annual clearance sale, which opens on Saturday morning. The bill embodies the very best system of advertising, printed legibly and in attractive form. The plan for the bill was drawn by Mr. Robert Barnhill, junior.

You can help make this paper better by sending in news items. The editor or staff cannot get every item. This is your paper, help it along. Give it your news items, your advertising, your subscription, your printing and your moral support. The paper needs them all to be a true mirror of the community it represents. Do it today! The paper is just exactly what you make it, so boost it and help it along.

What is the poor retailer to do? He is told that if he does not accept scrip he will be boycotted by those who believe in it and the business will go to those who do. In the meantime he has to pay his wholesaler who tells him he will not accept scrip and the banker who tells him the same thing. What is the poor devil to do? A U.S. coin used to have inscribed on it the words "In God We Trust" and a local preacher suggested that Mr. Aberhart should have placed on his certificates the words "I know that my Redeemer Liveth," but even then the skeptic would be justified in having his doubts. A ruling by the Justice Department at Ottawa would seem to be indicated. The question at issue is a simple one—has Alberta the right to issue a substitute for money?—H.C. in High River Times.

WEEKLY NEWS PAPERS

DISPLAY COURAGE

The weekly newspapers have been meeting in convention at Winnipeg and awarding prizes to publishers throughout the country who have met the requirements of a number of competitions. In past years Alberta has taken some of these prizes, the High River Times on a number of occasions being given first rank amongst the weeklies in Canada. Had the Weekly Newspapers Association been giving awards for courage, it would have concentrated on Alberta, for the weekly newspapers of this province have displayed more downright fearlessness in the last twelve months than any other group of weeklies on the continent. That claim takes in a lot of territory, but it is true. The political movement that swept this province made a strong appeal in the small towns and in the countryside. Any man or woman who lifted his voice against it was in danger of being ostracized in business and social life. These small town weeklies, if actually opposed to the ideas being spread abroad, might have remained silent rather than endanger their resources by coming out in open opposition. But they did oppose, not because they were friends of some other political party, but rather because they felt very strongly that what was proposed to be put into operation might prove harmful to Alberta. The weekly newspapers have spoken their mind frankly, and in doing so should have proved to their communities and to the province at large that they are not under the thumb of the subscribers and the advertisers; that they speak their own minds even though what they say is contrary to the popular opinion of the moment in the communities in which they are published. —Lethbridge Herald.

A VANISHED SECTION

When in 1919 a general strike developed in Winnipeg and revolution was feared by many, the federal government inserted Section 98 in the Criminal Code of Canada. Winnipeg was an armed camp and parliament concluded that this section was required to empower the authorities to take sudden and drastic action if need be. Now Section 98 was a Jim dandy of a statute. It made a criminal offense, subject to 20 years' imprisonment, out of attending a meeting of any association whose purpose was to effect change, political or economic, by using force or terrorism. The leasing of a hall for a meeting of such an association was similarly made an offense liable to a fine of \$5,000.

Anyone bringing into Canada or circulating a book advocating violence could have been arrested under this act and sent to jail for twenty years.

The section was not enforced for many years until the threat of communistic outbreaks during the depth of the depression caused it to be revived and put into operation. Labor was strongly against the section and the present premier made its repeal a part of his pre-election program. Last week the section was duly repealed.

But in case anyone thinks they can go out now and promote an incipient rebellion against constituted authority it might be pointed out that the Sedition Act has been so amended by Hon. Mr. Lapointe, attorney-general, so

THE CANADA YEAR BOOK, 1936

The publication of the 1936 edition of the Canada Year Book is announced by the General Statistics Branch of the Dominion Bureau of Statistics. The Canada Year Book is the official statistical annual of the country and contains a thoroughly up-to-date account, its institutions, its demography, the different branches of production, trade, transportation, finance, education, etc.—in brief, a comprehensive study within the limits of a single volume of the social and economic condition of the Dominion. This new edition has been thoroughly revised throughout and includes in all its chapters the latest information available up to the date of going to press. The 1936 Canada Year Book extends to over 1,150 pages, dealing with every phase of the national life and more, especially with those susceptible of statistical measurement. Attention may be called to some of the special features of the present volume. The statistical summary, included in the introductory matter, has been extended this year. A special article, "Canada on Vimy Ridge," prepared by Colonel A. Fortescue Duguid, D.S.O., B.Sc., R.C.A., Director of the Historical Section (G.S.), Department of National Defence, has been included in Chapter II. This is apropos in the light of the pilgrimage to Vimy and the official unveiling of the Vimy Memorial arranged to take place this month.

The death of His Majesty King George V. on January 20, 1936, received with deep sorrow throughout the Empire and with world-wide regret, and the succession of King Edward VIII. to the throne, have been appropriately marked by the reproduction as frontispiece of the official Proclamation of the Government of Canada made on January 21, 1936, accompanied by the latest official photographs, obtained through the courtesy of the respective court photographers.

The volume is illustrated by many maps and diagrams, and the latest available data are everywhere included.

Owing to the urgent need for economy in the distribution of Government publications, it has become necessary to make a charge to all individuals receiving the Canada Year Book. Persons requiring the Year Book may obtain it from the King's Printer, Ottawa, as long as the supply lasts, at the price of \$1.50, which covers merely the cost of paper, printing and binding. By a special concession, ministers of religion, bona-fide students and school teachers may obtain paper-bound copies at the nominal price of 50c each.

WHO AM I?

I am more powerful than the combined armies of the world. I have destroyed more men than all the wars of the Nations. I am more deadly than bullets, and I have wrecked more homes than the mightiest of sieges. I steal on this continent alone over \$300,000,000 each year. I spare no one, and I find my victims among the rich and poor alike, the young and the old, the strong and the weak; widows and orphans know me.

I loom up to such proportions that I cast my shadow over every field of labor, from the turning of the grindstone to the moving of every railroad train. I massacre thousands upon thousands of wage earners every year. I lurk in unseen places and do most of my work silently. You are warned against me, but you heed not.

I am relentless. I am everywhere in the house, on the streets, in the factory, at the railroad crossings, and on the sea. I bring sickness, degradation and death; and yet few seek to avoid me. I destroy, crush or maim. I give nothing, but take all.

I am your worst enemy—I am Carelessness.

that it will operate on a lesser scale but much the same as did old Section 98.—Brooks Bulletin.

IN REGARD TO REDEMPTION

One cannot but feel that there has been much unjust criticism of newspapers which have ventured to question the advisability of issuing prosperity bonds. It can surely be conceded that these newspapers have a sincere interest in the province, and moreover they have in many instances a large investment in the province. There are no responsible citizens but wish to see Alberta prosper, but it is only the part of wisdom to examine extraordinary measures to bring about prosperity.

On the matter of the prosperity bond issue, the Lethbridge Herald quoted the wording of the Order-in-Council in respect to redemption: "That the certificates shall bear the date of issue and shall be redeemable by the provincial treasurer at face value thereof, upon presentation thereof to him by the bearer after expiration of two years from the date of issue; provided that at the time of presentation there are attached to the certificate one hundred and four stamps of the nature hereinafter referred to, each stamp representing one per centum of the denomination of the certificate."

This specifically states that certificates will be redeemed in two years from date of issue if bearing 104 stamps.

Now in speeches during the past two weeks, it has been stated that certificates can be redeemed prior to the two years, in event of obligations which have to be met outside the province. The Order-in-Council says one thing, the Ministers have said another. Speaking of this confusion the Lethbridge Herald says: "But on one knows whether the order-in-council clause providing for redemption will lend itself to such an interpretation; no one knows whether the Provincial Auditor who must follow the terms of the order-in-council will allow the scrip department to use the stamp fund in this manner."

"Why blame the newspapers for misleading the people when the Ministers of the Government themselves do not know where they are going?"

"The Herald has often said, and it repeats, that no person nor organization would be gladder to see Social Credit succeed than it would be. But it is our duty to the public, we believe, to set it that, in the attempt to put Social Credit into practice the structure which the people of this Province have built in the past 60 years is not brought crumbling about their heads in ruins."—Ex.

Old Lady: "I wouldn't cry like that, my little man."

Boy: "Cry as you damn please; this is my way!"

Often the more persistently the doorbell is rung the less important the visitor.

An optimist is a man who speaks kindly of the weather when he pays an eight months' coal bill.

"Girl on arson charge"—headline. What of it? Most of the sweet young things can set our hearts on fire.

The family tree is right enough if it produces man timber and not just plain nuts.

It is said that the hay crop from the Tim Buck boulevard will go to feed the asses in Edmonton.

"I must do something to reduce my overhead expense," said a local man, as he paid for his wife's new summer hat.

Herb Ott, employed for over 10 years with the McGillivray Coal Co. at Coleman, passed away following operation for appendicitis on July 10th, aged sixty-four years. The remains were forwarded to Lethbridge for burial.

William Rodlick, resident of Relief camp 15, five miles west of Pincher Station, was drowned on Tuesday evening while swimming in the South Fork river near the camp. He was a former resident of Wayne, and was 29 years of age.

OUR POINT OF VIEW

The economic value of the tourist trade cannot be too strongly or too frequently stated, therefore the following facts given out by the government information bureau at Ottawa deserve some attention.

In 1935, says the bureau, 24,788,201 visitors and tourists passed the Canadian immigration inspectors at boundary points and ocean ports. Which means that the immigration department dealt with a temporary movement amounting to more than twice the entire population of Canada.

What this means to general business of the country may be readily appreciated. The first to directly benefit are the railways, and other transportation companies, the hotels, the oil companies, motor service stations and retail stores. Through these the benefits are passed on to other trades and occupations, so that there is hardly a person in Canada who does not derive some advantage, directly or indirectly, from the tourist traffic.

The governments, dominion and provincial, are coming to recognize the value of this business more and more, but they have not reached the point where it can be said that everything possible is being done to make the volume of visitors still larger. There are still plenty of "goods" on the national shelves of Canada that these visiting "shoppers" are not allowed to get to.

It is the duty of every citizen, whether he is directly concerned with the tourist trade or not, to do his part in seeing to it that this state of affairs is remedied as soon as possible.

BURNS' IDEA OF PATRIOTISM

To put it briefly, Burns' idea of patriotism was: What can I give to my country, NOT what can I get from my country? It is hardly to the credit of the Scotsmen of the period that such a genius should have been dogged by frightful poverty from the cradle to the grave. No wonder he had contemptuous scorn for wealth and privilege. The following lines in his "Epistle to Davie, a Brother Poet" depicts an attitude of mind ever present with Burns:

"It's hardly in a body's pow'r
To keep, at times, from being sour.
To see how things are shair'd;
How best o' chieles are whiles in want

Whist coofs on countless thousands rant,
An ken na how to wair't."

Had he lived in Canada at the present time there can be little doubt where Robert Burns would have stood with regard to the efforts of the Canadian farmers in the marketing of their produce through the pools.

In his dedication to the Nobelen of the Caledonian Hunt he shows his independence of spirit. In part he says: "The poetic genius of my country found me at the plow, and threw her inspiring mantle over me. She bade me sing the loves, the joys, the rural scenes and rural pleasures of my native soil in my native tongue. I tuned my wild artless notes as she inspired."

He says in another part of the same dedication: "I do not approach you, my Lords, in the usual style of dedications; thank you for past favors. Nor do I present this address with the seal of a servile author looking for a

NOTICE TO CREDITORS AND CLAIMANTS

IN THE ESTATE OF Eng Sha, late of Blairmore, in the Province of Alberta, deceased.

NOTICE is hereby given that all persons having claims upon the estate of the above named Eng Sha, who died on the 15th day of June, 1936, are required to file with J. E. Gillis, Barrister, Blairmore, Alberta, solicitor for The Royal Trust Company, Public Administrator, within two months from this date, a full statement duly verified of their claims and of any security held by them, and that after that date the Administrator will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or which have been brought to its knowledge.

Dated this 24th day of July, 1936.
J. E. GILLIS,
Solicitor for the Public Administrator,

AN HONESTY TEST

A staff member of McClure's Magazine once staged a scheme to test the honesty of people. He sent to each of fifty men and women a dollar bill, with letters showing the money was intended for a firm which in reality was his own address.

Of five wives of prosperous citizens, three sent back the dollar. Of five actresses, three sent it back. Of five trained nurses, three sent it back. Of five stenographers, three sent it back. Of five teachers, four sent it back. Of five successful business women, five sent it back. Of five miscellaneous women, three sent it back. Of five working girls, three sent it back. Of five doctors, three sent it back. Of five lawyers, three sent it back.

In the group of men of the five successful business men, three returned the dollar. Of five rich men, four returned it. Of five doctors, three returned it. Of five New York aldermen three returned it. Of five newspaper men, four returned it. Of five saloon keepers, one returned it. Of five New York policemen, three returned it. The final result showed that more women returned the money than men, and more promptly. On the other hand, a man worth \$1,000,000 never sent it back at all. The experiment demonstrated that the majority of people are honest.

The letters sent out with the \$1 enclosure were to lead the recipient to believe that he could stuff the dollar in his pocket, destroy the letter, and no one would be the wiser. He was led to believe the addresses had been mixed and that the money had been sent to him by mistake. The experiment cost the McClure publishers a few dollars but the information gained was well worth the price.—E.S.

A man in a hospital for mental cases sat fishing over a flower bed. A visitor approached and, wishing to be affable, remarked: "How many have you caught?"

"You're the ninth."

Some of the Scotch ladies of Southern Alberta, who left recently with the Vimy Pilgrimage party, are said to have eaten nothing between Alberta and Montreal—so they'd have nothing worth anything to throw away.

PASS EIGHTEEN YEARS AGO
(The Blaimore Enterprise, 1918)

July 19.—Patients and staff of the Frank Military Hospital were out for a spin on Wednesday afternoon, and a very enjoyable time was spent on the shores of Crow's Nest Lake. The ladies of the Bellevue branch of the Red Cross Society were in attendance and served refreshments. Boats and cars were placed at the disposal of the party and everything was done to make the outing pleasant.

Two Bohemian boys, Frank Horejka and Frank Cizek, came near losing their lives. They were into one of the unused workings of the Frank mine when an explosion occurred. The boys were located, almost stripped of their clothing, with flesh hanging in shreds and bleeding freely. They were removed to the Blaimore hospital, and reports say they will recover.

Miss Crough, who for some time has been a teacher in the school, has resigned, and was given a farewell party, at which a presentation was made to her on behalf of the people of Frank by Mrs. Moe. C. J. Tompkins was also a speaker at the party. Mr. and Mrs. John Hutton, of Bellevue, have been officially informed from Ottawa that their son, Sergt. George Hutton, M.M., was killed in action on November 6th, 1917, at Passchendaele Ridge.

The officers of Bellevue I.O.O.F. lodge were installed Monday night by Fraser McLeod, D.D.G.M., of Coleman, as follows: David Morris, J.P.G.; David Davidson, N.G.; W. Brooker, V.G.; Robert Scott, treasurer; Herb Barless, secretary.

Walter Wain sustained a fractured leg in the Bellevue mine on Wednesday.

Mrs. J. M. Carter has returned from Itzville, Washington, to which point she had accompanied Mrs. Chapman, mother of Mrs. Drumm.

Mrs. J. J. Murray and Miss Sara McColm will return to Frank today from a holiday in camp at the South Fork.

The F. M. Thompson Co. are this week advertising a big annual summer sale, starting Saturday and continuing to August the 3rd.

A picnic was held at the Coleman nuisance ground on Sunday last. Large numbers of pigs and other folks attended.

Rev. Thomas Powell, superintendent of Methodist missions, occupied the pulpit of Central Union church on Sunday.

July 26.—Charles E. Beebe, former resident of Blaimore, met accidental death at Portland, Ore., when crossing a heavily travelled highway. He was hit by a truck, dying shortly afterwards.

Private Leonard Adlam, brother of Mrs. J. A. McDonald, was killed in action July 21st. He was 34 years of age and single.

The marriage took place at the home of Mrs. Drumm at Frank, on Wednesday evening, of Miss Mary Landot, of Frank, to Mr. A. Watson, of Bellevue. Rev. W. T. Young performed the ceremony. Mrs. J. M. Carter, Mrs. C. J. Tompkins and Mr. Fred Utley attended the ceremony.

The new residence of S. H. Turner, north of town, is nearing completion. W. Stevenson has assumed the position of manager of the Hillcrest Collieries, and moved his family to Hillcrest this week.

Archie McLeod and Danny Walker are this week attending the Lethbridge stampede.

Born on Wednesday morning, to Mr. and Mrs. J. E. Gillis, a son.

A friend of McMurphy's was given the privilege to shave himself in Mac's living quarters. He later complained that the shaving soap was no good. On investigation, Mac found that his friend had used up a whole tube of tooth paste.

SUMMER IS COMING

Summer is coming. How can we tell? Not by the birds that sing in the dell;

Not by the lilacs fragrant of smell, But by the "skeeters" that bite like—something.

District News
From Our Own Correspondents

HILLCREST HAPPENINGS

Mrs. A. Petrie and family are holiday visitors at Waterton.

Mr. and Mrs. Harry Douglas are rejoicing over the birth of a son.

Mrs. F. Lishman, of Del Bonita, is a guest of Mrs. R. Brown.

J. Tutt is spending his vacation at Seattle.

Fred White is confined to his home with an injured knee, the result of an accident sustained in the mine.

Mrs. J. McDade and family are camping at the South Fork.

The Hillcrest seniors defeated Coleman seniors in baseball 6-5 on Friday last.

The Detroit Colored Giants defeated the Hillcrest juniors 12-5 in an exhibition baseball game here on Saturday.

Hillcrest juniors swamped the Macleod juniors 16-0 in a junior league game.

Mr. and Mrs. W. Stevenson were visitors to Lethbridge Monday.

COWLEY HAPPENINGS

Mr. and Mrs. Bob Coghill, of Warren, were recent guests of Mr. and Mrs. Robert Littleton.

Mr. and Mrs. A. Noel Cox, of Lundbreck, have returned from a motor trip to points in British Columbia.

Miss Kathleen and Michael Eltr are on an extended visit to Vancouver, Victoria and other points in B.C. making the trip by motor.

Mr. and Mrs. Nelson Askew, parents of Mr. and Mrs. J. D. Bickell, of Hanna, paid Mr. and Mrs. Askew a visit over the week end. They made the trip by auto.

Mr. and Mrs. Lou Lemire and children spent the week end visiting with relatives at Macleod.

Mike Soukroff is now employed at road work on the highway west of Lundbreck Falls. His wife and children are stopping there also for the present.

Jack Green left by motor on Friday morning last to join his family at Sidney, B.C., where they will make their home in future.

On Wednesday of last week, Mr. and Mrs. R. Littleton, accompanied by Mr. and Mrs. John Littleton, of Grande Prairie, were visitors to Waterton Lakes.

Mrs. Hastings, of Calgary, accompanied by friends, who are on a motor trip to points in the United States, stopped over in Cowley on Tuesday to pay a visit to old friends.

The Cowley Girls' Club held a dance in Wilson's hall on Friday night. Owing to the extreme hot weather, the crowd was not over large.

The weather here has been intensely hot for several days, with the thermometer a good deal of the time ranging from 95 to 100 degrees in the shade.

Mr. and Mrs. Arthur Tustian are moving into W. E. Tustian's house, at the west side of town this week. Mr. and Mrs. Matthews will take up residence in the Elevator Co's house vacated by Mr. and Mrs. A. Tustian.

Mr. and Mrs. J. R. Wood and three daughters, Ila, Marie and Dorothy, have returned from a motor holiday trip of a few days to Cranbrook and intermediate points.

Mrs. Robert Littleton, who was taken suddenly ill on Sunday night, suffering from inward blood poison from a wound on the leg sustained about a year ago, is a patient in St. Vincent's hospital at Pincher Creek.

Mr. and Mrs. Elwin Tustian, and daughter Freda, of Parkland, who have been on an extended holiday trip by motor to Vancouver and other B.C. points, stopped over in Cowley returning to visit with relatives and friends.

Teacher: "Now, if I lay three eggs here and five eggs there, how many eggs will I have?"

Skeptical Pupil: "I don't think you can do it."

BELLEVUE HAPPENINGS

Mr. and Mrs. J. Price returned over the week end from a holiday spent at the North Fork.

Mrs. Wm. Blinston returned to Cranbrook, after spending two weeks here with her daughter, Mrs. C. W. Johnson.

Miss Marjorie Key, of Calgary, is visiting at the home of Mr. and Mrs. Gordon Key.

Mrs. W. McDonald is holidaying at Coal Creek.

Mr. and Mrs. H. Kaye returned Saturday from a two weeks' vacation spent in Winnipeg.

Mr. Innis, local bank manager, is holidaying in Western States points.

Mrs. Penman left over the week end to visit her mother at Vancouver.

Mr. and Mrs. Ed. McDonald and Laura, and Mr. and Mrs. Leslie McDonald and Carol, left Saturday for Coal Lake.

Mrs. I. Hutton returned Sunday evening from Creston, where she had been visiting Mrs. James Eddy.

Mr. and Mrs. S. Fidenato and daughter, and Miss Tecla Favero left Thursday for California, where they will holiday for a month.

Mrs. Cardie and family, and Mrs. F. Bosely returned Tuesday evening from a week's holiday spent in Calgary.

Morris Hampson left by bus Tuesday for Calgary, where he will meet his mother, who has been spending the summer there.

Mrs. Fred Padgett left Monday for Toronto, and will be away about a month.

Leslie Chewick, of Lethbridge, is relieving at the local bank.

Mr. and Mrs. F. Gilroy and family left Tuesday for Vancouver.

Miss Dorothy Patton, of Lundbreck, is visiting at the home of Mrs. B. Saynor.

Mrs. Williams, of Lethbridge, spent several days here at the home of Mr. and Mrs. J. Shevels.

Fred Padgett and daughters Lily and Hilda are spending a few days in Calgary.

Mr. and Mrs. J. O'Connell, of Seattle, who had been visiting friends here, returned to their home on Wednesday.

Misses Ettie and Katherine Price, who had been camping at Lee Lake, returned home on Thursday evening.

Mr. and Mrs. J. L. Cousins, and Mr. and Mrs. C. W. Johnson left Friday

THEY PREFER FISTS
TO THE SIX-SHOOTER

Apparently reflecting the passing of the Western boy's interest in the cowboy's "six-shooter," and revival of interest in the Anglo-Saxon's "manly art" with the fists, nearly 1,000 attended a boxing tournament sponsored by the 1st Calgary Boy Scout Troop. The Scouts themselves showed up well in five weight classes—the 70, 80, 110, 118 and 135 lb.

Policeman: "Hey, you, where you going with nine buckets of water?"

Boy: "I'm going to drown a cat."

Lady: "That piece of fish you sold me yesterday wasn't half so good as the piece you sent three weeks ago."

Fishmonger: "That's funny: it was off the same fish."

for Spokane, to visit Mr. Johnson's father, a patient in hospital there following a recent motor accident. They returned home on Monday evening.

The Ritchie family are now occupying their summer cottage at Lee Lake.

Kathleen and Alex, Coastick returned Sunday from several days spent at Kootenay Lakes.

Charles Ritchie, junior, returned yesterday from Nelson, where he had been spending the past six weeks.

DEAR FRIENDS!

Joe Schlosser told us a good one this week. It appears that Mrs. Sam Whiteside, accompanied by Mrs. Beingsesser and Mrs. Chilton were motoring out to the Schlosser farm east of town one night last week and came upon a mother skunk with four little ones. In the excitement the mother and one of her babies ran off, leaving three other little ones behind. On the advice of Mrs. Whiteside, who claimed that the little ones were too young to be frisky, Mrs. Beingsesser and Mrs. Chilton got out of the car, and started to pick the three babies up. Well, what happened is another story. When they arrived at the Schlosser farm, the occupants were turned out of the house while the ladies changed clothes. For the past week Mrs. Chilton and Mrs. Beingsesser have been dipping their clothes in Turner Valley gasoline—Clareholm Local Press.

Teacher: "What does 'unaware' mean?"

Susie: "It's the last thing you take off at night."

Lieutenant (roaring with rage): "Who told you to put those flowers on the table?"

Steward: "The commander, sir."

Lieutenant: "Pretty, aren't they?"

IMPARTIAL
AS LIGHT

YOU cannot argue with light. It just shows you things as they are. It plays no favorites. It gives brightness to the things that are already beautiful and it floods revealingly into the dark corners to show the dust and the grime and the hidden ugliness. If you guess at the nature and quality of things that are only half seen, if you see things that are not there, your eyes and your imagination are to blame. You cannot blame the light. For it can only illumine the aspects that are turned towards it.

NEWS is like light. It sheds a beam on men and events. It lifts the darkness from promotions and policies. It penetrates to hidden things and shows the truth as it is, for all to see.

THE news columns of a good newspaper are impartial. They tell the truth as it is found, they give all the facts that are known. The same news that guides its editorial opinions is there in full to inform your own judgments. It is the chiefest function of a reputable newspaper to bring everything of importance to the people into the daylight of publicity, discouraging vice and corruption and chicanery.

The independent newspapers of Southern Alberta shed the light of truth on the happenings and developments that interest you. Read them, confident in their integrity.

Loans For Agriculture

Appropriate was the warning issued recently to investment companies and investors by S. P. Grosch, K.C., chairman of the Local Government Board of Saskatchewan, when he told the Investment Dealers' Association of Canada in session at Jasper, Alberta, that they could not expect to be collectors alone, but must be prepared to continue to loan money.

At the same time, according to press reports of the convention, Mr. Grosch told the bond dealers that they "must be quick to offer concessions and help in debt adjustment if investors are to retain their status and the protection they now have."

It is generally well known that many of the loan companies, if not all of them, have shut down on loans in the prairie provinces and particularly in this attitude applicable to loans to farmers. Where the security is ample and prospects of repayment on maturing dates exceptionally good the mortgage companies are accepting a limited number of "risks" in the cities, but little if any loan money is available to western farmers just now, no matter what their record, how good the security they have to offer or how excellent the character of the prospective borrower.

Thus the farmer and the agricultural industry generally in the west is in somewhat parlous condition when it comes to securing credit to make needed improvements or to carry on operations. It is true that there are governmental boards in existence for the purpose of making agricultural loans but these institutions have either no money available or such a small amount in comparison with the needs of the day that they are obliged to restrict their activities to a few select loans.

In the very few instances where mortgage corporations are prepared to advance money they are still insisting on a return of seven per cent. for their investment and this is a higher rate of interest than borrowers can afford to pay in the light of income from ordinary revenue sources.

It is admitted, of course, that there are two sides to this story as with most stories. Loan company managers say that as custodians of private funds they cannot afford to loan money in the prairie provinces at the present time and particularly they cannot afford to run the risks of making loans to agriculturists. They point to the past few years of combined general economic and agricultural depression, the latter resulting from drought, surplus stocks of wheat and low prices for agricultural produce as an excellent reason why they should keep their purse strings tightly drawn when the farmer asks for a loan.

But more particularly do they inveigh against what they regard as repressive legislation enacted by the several provincial governments as a potent reason for withholding credit from the farmers, legislation which has been placed on the statute books in the belief of the sponsors that they are protecting debtors at a time when they knew not which way to turn to escape from almost intolerable burdens.

Possibly the loan companies themselves are not altogether without blame for this class of legislation in at least some instances, if Mr. Grosch's diagnosis of the cause of it is correct, for he is reported to have declared his belief that "one of the chief reasons for placing upon the statute books legislation which limits the rights of loan companies is to be found in the fact that some companies have adopted an attitude of drift and desire to wait until something turns up, with the result that the debtor gets in touch with a member of the legislature and demands all sorts of drastic legislation against loan companies."

One cannot get away from the fact that in the past four or five years, because of depression, conditions and lack of credit, farm property has perhaps been allowed to run down at heels, due to the impossibility of renewing or replacing worn out equipment in anything like the degree necessary to continue to operate on an economic scale or to provide new implements to meet changed methods necessitated by changing conditions.

Almost every farmer knows by experience that this is the case and if he is unable to secure the necessary credit to enable him to replace the worn out tools of his trade and to purchase new equipment necessary for economic operation, the day when he is going to be able to pay his past indebtedness is further deferred and the loan company and the farmer alike suffer as a result.

Since the entire western country is still largely dependent upon agriculture for its future as well as its present welfare, it would appear to be good business for the loan companies to offer concessions in the matter of debt adjustment to a feasible limit and continue to loan money at a reasonable rate for agricultural purposes where the security is satisfactory. Such a course would appear to be in their own interests, in the interests of the clients whom they represent, in the interests of the farmers and in the interests of the country to do so.

Paid While It Lasted

"Washing" canceled documentary stamps, worth from \$1 to \$20 apiece, and selling them again at full value, to unsuspecting commercial houses, was a racket uncovered by Secret Service men in Boston. Stamp-collectors sold the stamps to the "washers," who were accused of doing the Government out of \$500,000 on stamps used for deeds and stock transfers.

The early Indians of North America made beads from the shells of clams, fresh-water mussels, and abalone, and used the beads as a medium of exchange. It was called "wampum."

Used Diplomacy

"Dearest," said the young mother, "I've decided to name our baby Samantha." Disagreeing with her on the choice, her husband tried to solve the situation diplomatically. Finally, he said: "After all, that will make a fine name, dear. My first sweetheart's name was Samantha. I'm sure she'll feel complimented."

The baby was named Janet.

Junior: "What are distant relatives?" Father: "They're the kind of people who call on you after making a long trip, and wish to avoid paying hotel bills."

Park System in B.C.

Acres Of Show Gardens Being Planned For Province

Six million acres of show gardens are being planned for British Columbia. Provincial and federal ministers are putting their legislative heads together to push immediate development of scenic parks in the coast province. Some are already well finished; others still a pencilled outline on the map.

Out of \$2,000,000 expected to go into public works this season, a sizeable lump will be used in grooming parks and building roads to make them easily accessible. The province, however, would hand over to the Dominion parks on which development has already started, and concentrate upon new ventures, including the 3,000,000-acre tract named for Canada's governor-general.

At present the province looks after five of its parks and has mapped out four more. The plan for The Dominion has four more, completing a system that provides six acres of parkland for every inhabitant of British Columbia and more than half an acre for every person in the Dominion.

The 973 square miles of Garibaldi Park will be brought close to trunk highways with completion of a \$6,000,000 suspension bridge spanning Burrard Inlet and joining Vancouver with its northern suburbs. Preliminary work on the giant bridge already has begun.

Up until now Garibaldi Park, cradled in the coast range, has been inaccessible to motorists. Game abounds in the timbered reaches, in the Alpine lakes and on the slopes of one of the volcanic mountains that rises to a height of 9,000 feet.

The province is keeping Tweedsmuir Park for its own. A well-watered garden that covers 3,000,000 acres of rivers, mountains and lakes, is largest of all. At present the bumpy roads are threatened only by trails. Development of roads will be carried out under a public works plan carried out by provincial and federal governments.

Maple Syrup Crop

Quebec Produced Largest Quantity This Year Since 1925

One of this French-Canadian province's foremost industries, the maple crop, this year reached the bumper proportions of 1,581,600 gallons of syrup and 5,747,900 pounds of sugar, a major portion of which was shipped to the United States. The largest crop since 1932, the maple sap produced a revenue of \$2,267,300, as against \$1,911,000 in 1934.

More than 40 per cent. of Quebec's maple sugar crop is annually bought by cigarette manufacturers in the United States, officials say. Meanwhile, French chemists are at work experimenting on the possibility of using maple sap in the production of alcohol.

Roquefort Cheese

More Than 26,000,000 Pounds Are Manufactured Annually

More than 26,000,000 pounds of Roquefort cheese are manufactured annually in the picturesque French village. For more than 11 centuries this cheese has been manufactured on a commercial basis, but Roquefort cheese, itself, goes back even farther in history, as it is mentioned by Pliny the Elder, who wrote in the early decades of the Christian era.

More than 200,000 persons, working on 25,000 farms, are employed and earn their living directly from the cheese industry. Milk is contributed by 700,000 sheep, tended by 10,000 shepherds.

Preferred More Dignity

Servants Of English Earl Did Not Like His Democracy

Many years ago we used to correspond with Aubrey Herbert, the son of the fourth Earl of Carnarvon, who, although a vigorous opponent of socialism, was one of the most democratic of aristocrats. He was so democratic that he insisted on his servants sitting at table with him and his wife. His servants disliked his democracy so much that at the end of a week they gave him notice that they were going to quit—"The Argonaut."

Trying New Method

On three farms in Oxford county, Ontario, an experiment is in progress with a new method of preserving alfalfa. The crop is stored in the silo in green condition and treated with acid.

England has two of the fastest battle cruisers in the world, the Repulse and the Renown, each having a speed of more than 31.5 knots.

Clever Men Beat Bank

Worked New System But Were Subsequently Caught

This stunt was revealed by an official of an important bank victimized by the perpetrators, who since have been arrested. . . . Two partners, ostensibly operating a legitimate business, opened a check account and deposited \$10,000. Within three months they had increased the fund to \$32,000, making the deposits in person, and getting to know the bank tellers. . . . One partner then appeared, asking to cash a partnership check in the sum of \$29,458.27. The teller recognized the signature, okayed it, and then—as is customary—used the teller's autograph to ascertain whether a sufficient balance was on hand.

Simultaneously, the other partner appeared at another teller's window, asking to cash a \$29,458.27 check. This teller also used the teller's autograph, and the official upstairs wrote in reply: "Okay, okay. I told you it's okay." . . . The loss was more than \$27,000.—New York Post.

Eliminates Fire Hazard

Automatic Extinguisher For Airplanes Has Been Perfected

Fire is to be banished from aviation, according to British scientists who have been working for a long time on a new blaze-prevention system for airplanes. Reports received in London say an automatic fire-extinguishing arrangement has been perfected which makes it almost impossible for a machine to catch fire, either in the air or after impact with the ground. Extinguishers are fixed in vital parts, on the gasoline tanks, with jets leading to the gasoline pipes, over the engines, in the passenger cabins spring-operated automatic nozzles, and on the fuselage. They have spring-operated automatic nozzles which act if a bump exceeds the pressure at which the spring is set. Extinguishing liquid is sprayed even before fire can start and no flames can survive the action of this liquid.

Hypnotic Suggestion

Lecturer Claims It Is Wonderful Help In Dentistry

Students of the Royal Dental Hospital in London have had their teeth cracked, chipped, filled and extracted, all without anaesthetics—and all without pain. It is done by hypnotic suggestion.

There is nothing mysterious about it," claims William Lovatt, who is lecturing on "hypnotic dentistry" in several large London hospitals. "It is a perfectly natural process and in no way harmful."

"A susceptible patient—and 70 per cent. are—has only to accept suggestions for anaesthesia and he can submit to the forces or drill confident that he will feel nothing, either at the time or afterwards."

Experience with 3,000 cases, he says, has convinced Mr. Lovatt that the possibilities for hypnotism in modern medicine are enormous.

Lifted Tons Of Money

W. T. Dagger, of Blackpool, England, just retired from the Corporation service, has lifted over 300 tons of money in his 30 years of collecting from penny-in-the-slot men. His collection, he estimates, has averaged \$90 daily in coppers, or about \$675,000 in 30 years. As \$5 in copper weighs just over five pounds his aggregate collection totals 302 tons.

Snowshoes For Quilts

The Dionne quintuplets will be able to waddle around in the snow next winter without sinking if Mike Lyons, of Clayville, New York, has anything to say about it, for he has constructed five pairs of snowshoes for the girls from Callander.

The hardest thing in making a speech is to know what to do with your hands.

AFTER EVERY MEAL

Using New Ceremony

Dominions To Have Special Part In King's Coronation

The British Dominions will have a special part in the crowning of the King, a cable to the New York Times from London, said. It adds that following the coronation next May, King Edward VIII. will make a tour of the Dominions.

"When Edward is crowned in Westminster Abbey on May 12, 1937," it says, "Canada, Australia, South Africa and New Zealand will receive positions in the ceremonies emphasizing their new importance as self-governing nations under the Statute of Westminster, enacted since the last coronation."

"In accordance with this statute, the King becomes not only ruler of the British Empire as a whole, but separately and distinctly King of the Dominions. A new ceremony will be prepared stressing this conception of the King as the direct head of each Dominion. Through the Dominions Office, conversations have reached an advanced stage regarding the exact part the Dominions will play. The crowning of the King in this new form will be the prelude to a royal tour of the Dominions."

SELECTED RECIPES

ROLLED NUT WAFERS

1/2 cup "Crown Brand" corn syrup
1/2 cup butter
1 cup bread flour
1/2 cup sugar
1 cup chopped walnuts, or peanuts
Heat the "Crown Brand" corn syrup to the boiling point, remove from heat and add butter. Then, slowly and stirring all the time, add the flour which has been mixed and sifted with the sugar. Now add the chopped nuts. Drop small portions from the tip of a spoon on a greased cookie sheet, 2 inches apart. Bake in a slow oven. These cookies can be rolled or just left plain.

Gliding In Stratosphere

May Be Possible According To Tests Made In Moscow

Gliners may be able to reach the stratosphere are long, according to reports from Moscow. By a new method a glider may be towed to a great altitude, the towing wire then paid out until the glider is 6,500 feet above the towing plane. If a second glider is towed by the first and its line paid out it can ascend above the first. Thus a plane flying below the stratosphere can, by this flying "chain" tow a glider miles above it. Gliding Master Venslav has been making the tests.

Faster Speaking

It is interesting to have the testimony of George Emery (who has written 150,000,000 words in shorthand) to the fact that people speak much faster than they did; the average increase he estimates at something like 25 per cent. The coming of the motor-car seems to have affected the national rhythm. Even much of the music we hear is taken considerably faster than the composer intended.—London Observer.

Not until 1870 were milk cows known in Japan. An American cow was imported at that time and two men, selected for their strength, were assigned the task of wrestling the milk from her.

Working On Anti-Fog Ray

Marconi Is Busy Trying To Perfect New Invention

Were Charles Darwin alive, he would not agree with the dissipation of the dank vapor which assails Great Britain mainly during cold weather, for the famous naturalist's delight of London was founded in a fog.

He gloried in its "grandeur," as he said, and always looked forward to wintering in the metropolis, attracted by the prospect of a smoky mist. Although the origin of the species of town fog is the deadly smoke, harbinger of ill health, the Victorians suffered these visitations with no hope of a "cure," but today scientists are having promising results.

Recently there have been many attempts to find the best method, and the outcome seems to be that future research will be centred around the aeroplane. The basis of experiments has been to spray chemicals down on the fog, and the mist will vanish if sufficient anti-fog mixture is used. Already headway has been made, but the drawbacks at present are the cost and lack of facilities, for a huge fleet of planes would be necessary to remove a yellow "peasoupier."

The most recent anti-fog developments promise to end all this fog, however; in the midst of "war-ray" talk and the "mystery beam," which detects enemy ships and hostile aircraft fifty miles away, comes the report that Marchese Marconi is perfecting a great anti-fog ray.

When, or whether, this ray will mature cannot be said; but it would appear that a definite fog-dispelling apparatus of wide application will be available. It may be a ray, a powder, or chemicals. Everything depends upon the scientists.

Forgotten Eskimo

Scientists Will Search For Traces Of Civilization In Eastern Arctic

Traces of a forgotten Eskimo civilization in the eastern Arctic will be sought by a Dominion government expedition, who left for the north on the Nascope, sailing from Montreal.

It is the annual patrol to government posts in the north with the holds of the veteran Arctic ship bulging with mail and supplies. In a 10,000-mile cruise that will take the ship within 800 miles of the North Pole, contact will be made with 35 posts.

Included among the passengers was Douglas Leachman, an anthropologist from the National Museum, who will spend several weeks on the Buhton Islands, lying at the eastern tip of the Ungava peninsula.

In the far-eastern Arctic, tools of bone and ivory have been unearthed that bore no resemblance to those used by Eskimos in other sections of the north. Scientists believe they indicate a peculiar Eskimo civilization now extinct, which Leachman will try to trace. He will probe old village sites on the islands in the hope of finding some clue to the date and character of the ancient culture.

By improved technique, surgeons report that it is now possible to cut and lengthen bones so as to extend a shortened leg as much as five inches.

No enemies to forgive? Then pardon a few friends.

Para-Sani

You'll save its modest cost before half the roll is used. That's because this heavy waxed paper keeps left-overs fresh, moist and flavorful. Ask for Appello's Para-Sani because of the exclusive knife edge cutter on the box.

HEAVY WAXED PAPER

ADD IT TO YOUR SHOPPING LIST

Warehouses at Calgary, Edmonton, Regina and Winnipeg

ATTEMPT IS MADE TO ENDANGER LIFE OF KING EDWARD

London.—The stately pomp of a ceremonial military procession along Constitution hill was interrupted dramatically when a stocky, club-footed man, in his 30's, pressed through the crowd and aimed a revolver at the king.

The revolver, which was loaded, was knocked out of the man's hand and fell in the roadway beneath the feet of the horse which His Majesty was riding.

While the man who held it was seized by police the king rode calmly ahead as if nothing had happened.

A woman in grey, whose name was not made public by the authorities, was the heroine of the occasion. She knocked the revolver out of the hand of the would-be assassin and sent it spinning to the ground.

Police closed in promptly and seized the man. He was identified as George Andrew McMahon, a Scotsman, aged about 34, who had lived in London for many years.

McMahon, described as a journalist, was arraigned in Bow Street police court before Sir Rollo Campbell Gray. He was charged with unlawful possession of a firearm with intent to endanger life, and remanded for eight days.

Reuters learned that McMahon's real name was Jerome Bannigan. He was born in Tyrone, Ireland, the agency stated, but since youth had lived with his parents in the Gowan district of Glasgow.

The whole incident was over so quickly few of the thousands in the crowd knew what had happened. But the story quickly spread and consternation was felt throughout London and the entire country. Newspaper stands were rushed by eager crowds seeking to learn the latest details.

The king himself was the coolest person in the hectic excitement. He passed steadily in the crowd at the point where the commotion occurred. When the revolver spun through the air and landed beneath his horse, he rode ahead.

McMahon was sentenced to a year's imprisonment in May of 1933 for allegedly libelling the police. But he won an appeal and the conviction was quashed. Until recently it was stated, he was editor of a paper called the "Human Gazette".

The apparent attempt on the king's life came just after the cavalcade had passed under the Wellington arch at the top of Constitution hill. Nearby spectators heard a scuffle at the back of the crowd.

Then a revolver, gleaming in the sunlight, flashed through the air and fell to the ground beneath the feet of the king's horse.

Buying More Gas Masks

British House Of Commons Asked For Additional Grant

London.—Great Britain has bolstered her air raid precautions.

A supplementary civil service estimate filed in the House of Commons asked an additional \$4,250,000 with which to purchase gas masks. Of this amount, \$125,000 was earmarked for the purchase and adaptation of two factories producing masks in the Manchester area.

An additional \$25,000 was allotted for the civilian anti-gas school.

Giant Artesian Area

Stretches In Ontario From Georgian Bay To Toronto

Toronto.—A survey of Ontario wells undertaken by the provincial mines department, in conjunction with federal geologists and the Ontario Agricultural college, has revealed the existence of a giant artesian area stretching from Wasaga Beach on Georgian Bay to Toronto. Col. R. B. Harkness, natural gas commissioner, announced.

Cuts Amusement Tax

Halifax.—A reduction in amusement taxes, amounting to almost 50 per cent., went into effect in Nova Scotia. Announcement of the reduction was made by Premier Macdonald after a meeting of the cabinet and representatives of the motion picture industry.

Grant For Fishermen

Charlottetown.—A combined federal and provincial government grant of \$50,000 is to be placed at the disposal of Prince Edward Island's fishermen for rehabilitation purchases. It is announced here as appointment of a provincial fisheries board was made known.

Economic Victory

Missouri Pleased With Surrender Of Sanctionist Countries

Rome.—Premier Mussolini, addressing an enthusiastic crowd in the Piazza Venezia, said: "The white flag has been hoisted today on sanctionist bastions."

Lifting of sanctions against Italy, effective by League of Nations order, "represents the surrender of those who would deny us victory," he declared.

Smiling and gay, Il Duce asserted the "economic victory" was due to the Italian people, who, he said, were ready for every sacrifice.

The crowd responded en masse: "No, to you."

Premier Mussolini concluded by saying: "Justice and civilization triumphed in Africa and Europe."

Amid a flag-waving ceremony to mark the end of sanctions, Mussolini moved into a period of intense collaboration with an Adriatic neighbor he once treated coolly—King Zog of Albania.

Of the action of Albania and other nations which refrained from sanctions, Il Duce's Popolo d'Italia said: "The Italian people will not forget this."

Taught by the Ethiopian war and its resultant sanctions the necessity of developing Albania's oil resources to the utmost, Italy has given King Zog five loans totalling about 30,000,000 francs.

The Albanian dictator has given Italy a big oil concession, various political promises and a better port at Durazzo for future use.

Collections Show Increase

Income Taxes For Federal Government Make Record

Ottawa.—New records in income tax collections are being made by the federal government. Collections for the first three months of the government's fiscal year totalled \$68,134,762, an increase of \$11,570,192 over 1933 figures.

The same upward trend was shown in collections of customs duties, excise taxes and duties. In the three-month period, customs duties less drawbacks, stood at \$20,053,396, an increase of \$1,472,946. Net excise taxes totalled \$26,406,619, an increase of \$4,244,978. Excise duties, less refunds and drawbacks, totalled \$11,215,376, an increase of \$2,014,411. Syndicate collections decreased \$5,760 at \$189,926.

Scadding In Toronto

Says It's Great To Be Back Home Again

Toronto.—Alfred Scadding came home to Toronto with a cheery grin on his face and a "golly, it's great to be back again," on his lips.

He came back to a mother who hung her arms around him and then cried as she saw his bandaged feet; to a group of overjoyed relatives and friends crowding around his stretcher and to a Dr. D. E. Robertson who flattered to hide his emotion.

It was the first time since last January he had been home or had seen his mother and the first time since a few days after his rescue he had seen Dr. Robertson who had spent 10 days with him in the pit that was the collapsed Moore River gold mine.

Next Convention In West

Technical Agriculturists Will Choose City For 1937 Meet Later

Fredericton, N.B.—The 1937 convention of the Canadian Society of Technical Agriculturists will be held in a western Canada city to be named later. It was announced at the 16th annual gathering of the society. Announcement also was made of the re-appointment of H. L. Trueman of Ottawa as general secretary and managing editor of the C.S.T.A. Review.

Entertains Legion Officials

Advance Party Guests Of Hon. Vincent Massey In London

London.—Members of the Canadian Legion official party, advance guard of 6,000 Canadian war veterans and others who will be at Vimy Ridge July 26 for the unveiling of the Canadian memorial, were guests on July 14 of Hon. Vincent Massey.

The Canadian high commissioner's reception in effect was a reunion of Canadians in London.

Received By King Edward

London.—Hon. Charles Dunning, minister of finance, and Hon. W. D. Euler, minister of trade and commerce, were received by the king at Buckingham Palace. The two cabinet ministers spent a short time with His Majesty.

Strength Of British Navy

Adequate For Any Demand That May Be Made Upon It

London.—Winston Churchill, who as first lord of the admiralty set the British fleet in motion in 1914, told a crowd at Epping:

"I wish to make it quite clear that the royal navy is adequate at the present time for any demand that may be made upon it."

"It is incomparably stronger than any combination of navies which could conceivably be formed among the states of Europe."

Lord Strickland, a native of Malta and owner of newspapers there, demanded in the house of lords that the government "let us have poison gas by the ton stored in Malta."

By this means, he declared, the Mediterranean island would become a base "so strong in defence and counter-attack that there would be no war."

SANCTIONS ON ITALY HEAVY LOSS TO BRITISH TRADE

London.—Sanctions cost Great Britain \$4,000,000 (\$20,000,000) worth of exports to Italy during the first half of the year, Walter Runciman, president of the board of trade, told the House of Commons.

Reviewing Britain's trade position for the past year, the minister said that British exporters' hopes would for some time, be centred on expansion of trade with the empire and with the rest of the sterling area. World trade as a whole, however, revealed encouraging features.

Runciman said he hoped the lost British export trade with Italy would be regained and told the house steps were being taken to get in close touch with the authorities in Rome in order that obstacles might be removed as soon as possible.

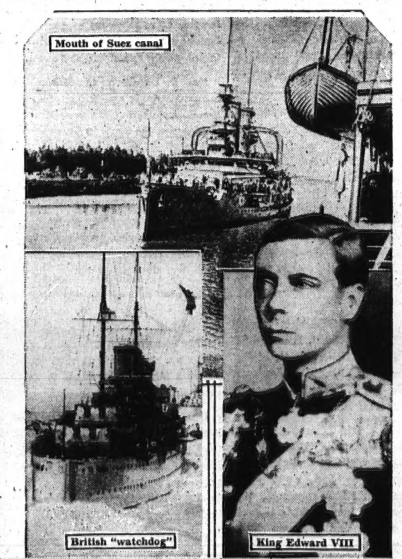

"There has been a year of marked progress in nearly all the principal industries, with the notable exceptions of coal and cotton," he said. "Progress has been especially good in those industries which supply the home market."

Improvement has been widespread and is best illustrated by the unemployment figures, he continued. Unemployment figures for 1933 (\$10,000,000) higher in the first quarter of 1936, despite road and sea competition. Besides this, he said, there was an increase in the postal receipts of \$4,000,000 (\$20,000,000).

Exports had increased during the period by £2,000,000 (\$10,000,000) but imports had increased to an even greater degree, Runciman told the members.

"There was no cause for alarm," he said, at the speed at which imports increased, provided that year by year they could be absorbed without undue strain on the exchanges and the goods were required for industries.

BRITAIN WITHDRAWS EXTRA SHIPS FROM MEDITERRANEAN

Now that the apparent crisis in the Mediterranean has vanished, several British warships have been withdrawn from the area, but in future the strength of the Mediterranean fleet will be kept higher than before. Reports from various sources intimate that Great Britain is fortifying an emergency route to the East which will be around the Cape of Good Hope. This route is not dependent upon such bottleneck navigation routes as the Strait of Gibraltar and the Suez Canal.

TO ATTEND CONFERENCE

Denton Massey, one of the young members of the Dominion House, who will represent Canada at the World Youth Conference in Geneva in September.

End Of Drouth

Chicago Man Predicts End Of Hot, Dry Weather

Chicago.—An immediate end to the drouth, with its crop ruin and threats of rising food prices, was forecast by the man who predicted the hot, dry weather six months before it arrived.

There would be "no more damage from drouth," he asserted, although it might take the country 10 days to accept the fact. By the end of the month, he added, there would be so much rain that "everyone is going to see that the drouth danger is ended."

The man was Selby Maxwell, astronomer-meteorologist, who said he read the good news in the wobbles of the moon.

Maxwell predicted the drouth's end with the same air of confidence with which he warned of its coming around Christmas time in 1935. At that time, he glanced at his long range forecasting charts—based on the distances the moon wobbles in its orbit—and predicted:

"That January and February would have heavy snow, and that drouth would develop during March, April and May and do its worst in June and July."

Premier King Officials

Lays Corner Stone Of New French Legation In Ottawa

Ottawa.—Premier Mackenzie King laid the cornerstone of the new French legation here on Bastille day, July 14, the national holiday of France. It will stand on the high cliffs of the Ottawa river below the research council building and the bureau of statistics.

Representatives of foreign nations looked on when Raymond Brugere, French minister to Canada, referred to the many ties binding his country to Canada.

Guarantee Of Support

Withdrawal Of British Fleet From Mediterranean Is Questioned

London.—Withdrawal of certain units of the British fleet from the Mediterranean does not affect Britain's guarantee of support in the event of attack given to certain Mediterranean powers, Foreign Secretary Anthony Eden told the House of Commons.

Eden referred to the "mutual assistance" agreements entered into by Great Britain, France, Yugoslavia and Greece when squadrons were being ordered against Italy and an Italian attack on the British fleet seemed possible.

The foreign secretary's statement was made in reply to a question by Geoffrey Mander, Liberal, who asked whether the withdrawal of fleet units affected the "staff plans" between the four countries for mutual support in the event of attack.

The French government, Eden said, regarded the mutual assistance agreements exchanged between Britain and France as cancelled on the withdrawal of squadrons.

Mander asked whether the other assurances remained in full force. Eden replied that, as regards the British assurances, the position remained as outlined in his speech.

Sir Archibald Sinclair, Liberal: "Haven't Yugoslavia and Greece disavowed?"

Eden: "I referred to my speech to our own agreement and not to that of other countries."

Inaugurating Air Service

Imperial Airways Directing Trips From Bermuda To New York

London.—A weekly air service between Bermuda and New York will be inaugurated during the coming autumn, it has been learned.

The service will be directed by Imperial Airways, subsidized with a capital grant of \$34,500 (about \$172,500), to provide a flying boat similar to the new type intended for main airline routes of the same company.

Also there will be an annual maximum subsidy of \$18,000 (\$90,000), to which the Bermuda government will contribute \$3,300 (\$16,500), for five years. Otherwise the subsidies will be paid by the colonial office.

Department officials declined to discuss reports the whole service was being modernized in accordance with resolutions passed last spring by the Canadian Defence Association calling for greater mechanization, greater supplies of modern equipment and more frequent opportunities for officers to witness manoeuvres on a large scale by troops in other countries.

They said, however, no large equipment orders were being placed at present.

Reports met by silence have persisted for some time that the militia was being reorganized in conformity with plans in effect in the other dominions and the United Kingdom.

This year the department has disbanded 13 days of non-infective cavalry units and caused amalgamation of eight others into four units, reducing from 35 to 28 the number of cavalry units in the country. It disbanded five field troops of engineers, reducing the total number to two, but authorized formation at Ottawa of the First Corps Field Service company. Fifteen field companies and two fortress companies of engineers were left intact.

Washington.—Admiral William H. Standley, acting secretary of the United States navy, said espionage activities of foreign powers might make necessary a revision of confidential navy documents and instructions.

Standley made his statement at a press conference in which the arrest of John S. Farnsworth, former lieutenant commander in the navy on charges of selling confidential naval information to an agent of the Imperial Japanese navy, was discussed.

Confirming reports of increased espionage, Standley said that "when there are increased naval activities, there is always an increased effort to obtain information."

The navy now is building 79 new ships, many of new design.

Moving swiftly to bring former Lieut. Commander John S. Farnsworth to trial on spy charges, high officials hinted that his arrest was only the beginning of a wholesale roundup of persons suspected of supplying United States navy secrets to foreign powers.

After Farnsworth, ill and trembling, was lodged in jail under \$10,000 bail on a charge of purveying confidential data to an agent of the Imperial Japanese navy, navy officers said the United States is "honeycombed" with spying activities.

The determination was expressed to take all possible steps to protect the fleet's secrets as the United States goes ahead with its program to strengthen the navy.

Justice department agents have not been withdrawn from the investigation with the arrest of Farnsworth. It was learned: "They will continue to work with naval intelligence men in trailing other suspects on the navy's list."

The Washington Post told of informal conferences between Japanese and American officials. It is said that Captain Tamon Yamaguchi, Japanese naval attaché, conferred with Captain William D. Puleston, chief of naval intelligence. The Japanese embassy and the Farnsworth matter was not discussed.

NEW PARTY WILL NOT CONTEST THE QUEBEC ELECTION

Montreal.—Paul Gouin, Action Libérale Nationale leader, in a statement here, announced his party will place no candidates in the provincial election field.

"Action Libérale Nationale was founded for two purposes: To adapt provincial legislation to present day problems and to endow Quebec with a national political aim."

"To accomplish this it was first necessary to overthrow the Taschereau regime. This task, a work of destruction, has been practically completed. We will now enter the second stage of our movement: The period of reconstruction."

"I believe it would be useless and actually dangerous to try to accomplish this work in the political field."

"First of all an educational campaign is needed, which for the moment should not be carried out except outside the bounds of electoral pre-occupations. For this reason, as chief of Action Libérale Nationale, I have decided not to enter any candidates in the ranks during the next elections."

Militia Changes

Many Units Will Be Wiped Out, Says Report

Ottawa.—The department of national defence made public a long list of militia changes indicating a vigorous house-cleaning was in progress among Canada's territorial troops.

Changes wiping out many units through disbandments and amalgamation were described as part of a plan to obtain better balance between the various arms in the non-permanent force. Some of the units abolished were not organized and it was emphasized the changes have been in progress for several months.

Department officials declined to discuss reports the whole service was being modernized in accordance with resolutions passed last spring by the Canadian Defence Association calling for greater mechanization, greater supplies of modern equipment and more frequent opportunities for officers to witness manoeuvres on a large scale by troops in other countries.

They said, however, no large equipment orders were being placed at present.

Reports met by silence have persisted for some time that the militia was being reorganized in conformity with plans in effect in the other dominions and the United Kingdom.

This year the department has disbanded 13 days of non-infective cavalry units and caused amalgamation of eight others into four units, reducing from 35 to 28 the number of cavalry units in the country. It disbanded five field troops of engineers, reducing the total number to two, but authorized formation at Ottawa of the First Corps Field Service company. Fifteen field companies and two fortress companies of engineers were left intact.

Washington.—Admiral William H. Standley, acting secretary of the United States navy, said espionage activities of foreign powers might make necessary a revision of confidential navy documents and instructions.

Standley made his statement at a press conference in which the arrest of John S. Farnsworth, former lieutenant commander in the navy on charges of selling confidential naval information to an agent of the Imperial Japanese navy, was discussed.

Confirming reports of increased espionage, Standley said that "when there are increased naval activities, there is always an increased effort to obtain information."

The navy now is building 79 new ships, many of new design.

Moving swiftly to bring former Lieut. Commander John S. Farnsworth to trial on spy charges, high officials hinted that his arrest was only the beginning of a wholesale roundup of persons suspected of supplying United States navy secrets to foreign powers.

After Farnsworth, ill and trembling, was lodged in jail under \$10,000 bail on a charge of purveying confidential data to an agent of the Imperial Japanese navy, navy officers said the United States is "honeycombed" with spying activities.

The determination was expressed to take all possible steps to protect the fleet's secrets as the United States goes ahead with its program to strengthen the navy.

The Washington Post told of informal conferences between Japanese and American officials. It is said that Captain Tamon Yamaguchi, Japanese naval attaché, conferred with Captain William D. Puleston, chief of naval intelligence. The Japanese embassy and the Farnsworth matter was not discussed.

Indians Hold Sun Dances

In Attempt To Bring Rain To Alberta Reserve

Calgary.—Sun dances, originally designed by the Indians to appease the all-powerful sun and provoke rain, have been held at the Stony Indian reserve, near Morley, 60 miles west of Calgary, as the worst drouth in 45 years withered vegetation and dried up streams and springs. Participants included 90-year-old Joshua Twin who declared present drouth conditions were the worst in nearly half a century.

Will Do Historical Canvas

Canadian Has Commission To Paint Ceremony At Vimy

Toronto.—John Russell, Canadian painter whose exhibitions of statuesque nudes have been a feature of past Canadian National exhibitions here, has been commissioned by the exhibition to record the Vimy memorial unveiling. Mr. Russell has gone to France to do a historical canvas of King Edward unveiling the memorial at Vimy Ridge July 26. It is to be completed in time for the exhibition's opening August 28.

Hold Responsible

Kingston, Ont.—A coroner's jury held convict Chester Crossley responsible for the death of guard John J. McCormick of Kingston penitentiary. The jury found McCormick died of knife wounds in the abdomen inflicted by Crossley.

Ferne, B.C., pleaded guilty in Saska-
toon police court to a charge of ob-
taining board and lodging by false
pretenses, and three charges of ob-
taining money by falsely pretending
he had a bank account at Fernie.

Just to show how far the properly
and respectfully printed newspaper is
in advance of any sort of a fly sheet,
the Coleman Journal of date July the
16th contained an account of a motor
accident which happened near Spo-
kan the following day. And people
could read that article without suffer-
ing from a Red stench.
